

Where is the digital camera? Who has been using the company car? When was the technician in the building? proxSafe is the intelligent management system for keys and valuables which provides answers to your daily 'key questions'. Contactless RFID keyTag technology provides reassuring reliability. The proxSafe family is modular, expandable and network ready.

racx slim

proxSafe racx slim is a modular solution, allowing you to create any system size for your own perfect solution by combining various types of keyPanels.

proxSafe racx slim systems consist of robust steel cabinets in a discreet color. Every racx slim system has adjustable feet to allow optimal installation. The lockable service compartment is protected by tamper contacts and includes all necessary connectors and the basic electronic equipment of the racx slim system. The terminal and the different modules are simply wire-connected to the internal control plate, which makes upgrading easy.

Every proxSafe housing is equipped with tamper contacts and 4 relays, which can signal alarms via a network and also locally.

Your benefits at a glance:

- **System Always Extendable with Additional Modules – Storage for up to 384 Keys**
- **Panels with 5 Different Slot Densities for Key Management**
- **Back-up Battery for Bridging Power Failures**
- **4 Alarm Outputs for Local Alarm**
- **Housing and Doors with Tamper Contacts**
